

CONSULTING

The staff at Learning Support Services proudly serves students, faculty and staff in the UW-Madison College of Letters & Science by promoting and supporting the thoughtful use of technology for teaching and learning. We:

- **Offer instructional technology services and classroom facilities**, including: media production, assistance with online learning tools, an expansive foreign language media library, equipment rental, computer labs and study spaces, and classroom computer & presentation rooms.
- **Consult & collaborate with L&S faculty and staff to improve teaching and student outcomes**, via assistance with multimedia & e-learning content creation, blended learning strategies, online course development, and instructional technology planning & implementation.
- **Lead workshops & professional development opportunities for faculty, staff & grad students**, including learning technology & pedagogy seminars, training sessions, and online workshops.
- **Provide technical support for:** UW online course management tools, classroom technologies, Learn@UW's vast technology toolbox, various interactive web tools
